Philip Morris - Putrescine Methyltransferase
Turkish Application No. TRA 108191
Our Ref.: PM-1412
Your Ref: 32836

Dear Mr. Bass:

At the request of Philip Morris, I am attending to the matter discussed in your November 18, 1992 letter to Mr. Schardt. Enclosed is a response to the October 8, 1992 Search Report in the above-identified application.

I have prepared only the substantive portion of the response. From my February 17 telephone call to you, I understand that the appropriate address, headings, captions and the like will be added by the Turkish agent prior to filing.

The argument concerning novelty of purified putrescine N-methyltransferase includes a supporting statement from a 1989 publication by Davies et al. Accordingly, I have enclosed a copy of that reference.

Please forward the enclosed response and the Davies publication to the Turkish agent so as to meet the March 8, 1993 deadline noted in your November 18 letter. Please contact me by fax or telephone if you have any questions.

Sincerely yours,

Gary L. Creason
Patent Agent
